

We thank you for purchasing a KITE Optics instrument, a brand that is famous for its outstanding quality and after-sales service.

Your instrument is covered by a 5 to 30 year warranty period, depending on the model you have purchased. Please consult [www.kiteoptics.com](http://www.kiteoptics.com) to download the technical data sheet of your instrument, which contains more details on the warranty period and instructions for use of your binocular or scope. We thank you for consulting this data on-line, to help us contribute to a better environment. This KITE Optics instrument and its accessories have been developed and inspected in Belgium.

#### CARE

Your instrument does not require any special maintenance. We only advise you to take good care of the lenses and make sure the instrument is well stored when it is not being used.

**Cleaning of the lenses:** Always remove large particles first, using a soft brush or by blowing them away. Large particles such as sand and salt could cause scratches on the lens surface during cleaning. For thorough cleaning we recommend breathing onto the lens surface to form a coat of condensation and then cleaning it with a soft and moist cloth.

Never press hard or use force while wiping the lenses. We advise not to use liquids meant for spectacle cleaning, unless they are advised for binoculars. Some liquids can bring damage to the coatings of your binoculars.

#### MAINTENANCE

Store your optics in a dry and well ventilated place. When the instrument is wet or moist, it must be dried before storage. Avoid your instrument of being exposed to jolts and shocks, dust and sand. If your instrument is not waterproof, avoid it of being exposed to water and high humidity.

#### WARRANTY

The warranty period of your instrument starts on the date of purchase in accordance with the following conditions:

In case of manufacturing faults or defects in material not caused by the user, we take on material and workmanship costs. We reserve the right to repair or replace the instrument or the defective part at our discretion.

This warranty is not valid when the defect has been caused by improper handling of the instrument, or in case of an accident. In that case, thanks to the excellent after-sales service of KITE Optics, the costs of materials and

workmanship will be brought to a minimum. It is in our philosophy and reputation to offer our customers the very best after-sales service available in the world of sport optics.

In a warranty case or for repair work, present the instrument together with this card to your authorized KITE Optics dealer. An instrument sent in without this card can not be repaired free of costs.

**Warning!** The warranty is not valid when the product has been serviced or repaired by a person or repair shop that is not authorized by KITE Optics. Never try to repair or make modifications to the instrument yourself.
